[CLICK HERE TO REGISTER](#)

After registering, you will receive a confirmation email containing information about joining the webinar. Each AAA Director must send in the [Agency Sign Up](#) form in order for each participant to create a CADER account.

The Behavioral Health program is offered at no cost to either the participant or to the AAA. This program is offered in collaboration with funding from

Learn About the Program

This program is designed to enhance your qualifications, expertise, and reputation in the growing field of aging. Each online course provides an interactive learning experience focused on real-world challenges with research-based information, instructional activities, case studies, expert commentary and a discussion board to maximize learning. To register for the CADER Behavioral Health in Aging Program the Training Liaison or the AAA Director must submit the [Agency Sign Up Form](#).

The program will consist of 5 courses. The Behavioral Health Training Program is comprised of approximately 19 hours of training. Upon completion of the program you will receive a certificate.

The Behavioral Health in Aging Training Program Courses are:

1. Alzheimer's Disease and Other Dementias of Aging
2. Mental Health and Aging Issues
3. Mental Wellness & Resilience among Older Immigrants and Refugees
4. Substance Use among Older Adults
5. Suicide Prevention among Older Adults

Course descriptions are located on the CADER Behavioral Health in Aging web portal. [CLICK HERE](#)
